

- Prestige designer product with highly developed lighting technology
- Multiple award-winning design (best of the best Red Dot Award, IF Award, London Design Award Gold, Middle East Design Award)
- Slender anodised light ring with 24mm height and 600mm diameter made of deep-drawn aluminium
- Due to the concealed power supply, the premium object appears to float in the room.
- Highest light output and simultaneously excellent glare control of $UGR < 13$ and $L65 < 1000 \text{cd/m}^2$
- Precise direct light suitable for double workstations combined with diffuse indirect light
- Brilliant light is emitted into every corner of the room via the perforation in the luminaire body
- Complete control of direct and indirect light components via DALI- or basicDim wireless technology
